APPCRO 3CX PLATFORM

DIGITAL TELEPHONY
IP PBX SYSTEM

VIDEO COLLABORATION
SOLUTION

UNIFIED COMMUNICATIONS
SOLUTION

The platform is designed for professional video communication, data sharing, document sharing, and application sharing over an IP network.

Broad areas of application: business meetings, presentations, education/remote work, webinars, interactive online classes...

Unified Communications

Email · Chat · Video · Presence · Voice · Directory Services · Mobility · Data

Comprehensive framework for e-learning

- Distance learning, without session limits Attendance records, tests, quizzes
- Education with interactive whiteboards, virtual classrooms, quizzes, presentations, and recording lectures
- SDK availability/integration

Solution for Telemedicine and Teleconsultation

- Medical teleconsultation and telemedicine
- Home patient care
- Sharing documents in DICOM format
- Remote device control

IAPPCRO BMS contact center UP platform is not a competitor to revolutionary communication tehnologies; it is a framework for them, as it deals with organizations, not individuals. The IN3CX platform prepares organizations for a new era of telecommunications and does not necessarily require standard telecom operators.
